Machine:	Squeeze conveyor
Short description:	SB/2120
Drive:	Conveyor AC-motor 750 Watt
Control system:	synchronous speed control via voltage generator, of the rotary printing press
Tachometer signal output:	U max. 180 V DC
Analog signal:	UE 0-10 V DC I max. 15 mA
Speed:	adjustable from 0 - 100 m/min (50 m/min at 50 Hz)

Page count:	4 - 128 pages
Paper weight:	up to the thickest kind of rotary printing paper
Product width:	max. 540 mm
Pressure rolls:	6 pcs., Ø 42 mm, pressure adjustable by springs

Input power:	750 Watt
Voltage:	3 x 400 V AC + N + PE 50/60 Hz
Control voltage:	24 Volt
Nominal current:	depending on length of the squeeze conveyor
Primary fuse:	depending on length of the squeeze conveyor

Infeed height:	800 mm
Delivery height:	800 mm
Total length:	1.500 mm
Total width:	918 mm (without electrical cabinet)

Weight:	ca. 120 kg (without electrical cabinet)
Color:	RAL 7035

Other colors, conveying heights and technical specifications, are available.  
 IN-DAT-SB2120
