 **MERTEN**
GROUP

 **sti** SYSTEMS™
TECHNOLOGY INC.

for North America

► **Working together is smarter** – better & faster results, shared resources, a stronger partner & a more secure future

Why this team... ?

Web printing remains a challenging market – for printers as well as for suppliers. We will see further consolidation with printers merging sites and focusing on core productions. This change also leads to different post press projects – more relocations, overhauls, re-configuration of lines and less new equipment. **“Can you solve my problem?”** is the question we need to answer today – within technical and budget restrictions. That will only be possible with strong partners which have the necessary resources.

We believe in teamwork – “shaping solutions together”. With this idea in mind, we looked for partners thinking alike. Eventually **RIMA, IN-LOG | GÄMMERLER, STI and MERTEN Group formed a team** with one goal – to be a one-stop solution provider. Our goal is to create reliable solutions that best fit your needs. We listen to your requirements and restrictions, look at the pros and cons of each idea, evaluate different scenarios, rank the best alternatives, deliver & support the final solution.

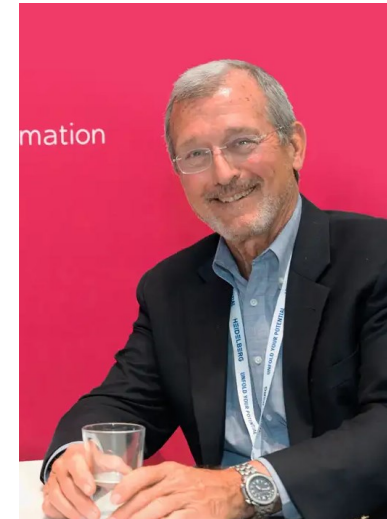

- **RIMA Atlanta** is now exclusive solution provider for IN-LOG | GÄMMERLER post press in North America
- **IN-LOG | GÄMMERLER** is now a solution partner for RIMA stackers in Europe

... to better support you !

Four committed partners – one team!

With **RIMA**, **IN-LOG | GÄMMERLER**, **STI Technologies** and **MERTEN Group** the team at RIMA Atlanta sends a strong message to the printing market in North America:

We are a dedicated and experienced team for your projects – from a single bindery stacker to a complete post press system for the pressroom. We perfectly combine unique experience, market knowledge, technical know-how with the resources to design, manufacture, install and support your projects.

- What a team! Renown industry leaders, the probably biggest installed base and 50+ years of experience are all combined in one strong and reliable team – to better serve you!

- A team of experienced professionals - RIMA, IN-LOG | GÄMMERLER & STI. For your post press & post bindery needs.

One stop solution provider

IN-LOG | GÄMMERLER now Solution Partner for RIMA stackers in Europe

■ Our goal - create efficient solutions with & for our customers

 IN-LOG |  GÄMMERLER are now one team and combine the best of two worlds. They are post press - conveying, trimming, stacking, log stacking, palletizing, mini-robots, cobots & individual automation solutions.

 MERTEN GROUP owns GÄMMERLER and IN-LOG. This gives us direct access to high-quality parts manufacturing, mechanical engineering and R&D. In addition, the Merten Group is successfully active in other business areas - this multi-pillar strategy reduces the dependency on the printing market.

 Rima is the standard for bindery stackers - with more than 10.000 stacker installations. Today RIMA also offers highly efficient packaging stackers for corrugated, envelopes and mailing stackers.

 sti SYSTEMS TECHNOLOGY INC. is a premier supplier of material handling equipment, incl. semi-automatic log stackers, drum-stackers and SuperFeeder hopper loaders for the bindery.

■ Equipment - a complete portfolio

Complete post press systems, bindery & packaging stackers, super-feeders, mini-robots, special solutions - from a single machine to a complete system.

New or rebuilt, single machine or complete line, standard equipment or customized solutions, as turn-key or OEM-solution

■ Engineering, Service & Support

Parts & service, factory rebuilds with warranty, electronic upgrades, PM-programs, relocations and re-configuration

■ Special solutions - when it needs to be special

As a solution provider and with the support of the MERTEN Group, we have the resources and experience to develop customized solutions. Our expertise helps us to find highly efficient solutions for specific customer requirements in conveying, trimming, stacking and palletizing.

► A team of experienced professionals - RIMA, IN-LOG | GÄMMERLER & STI. For your post press & post bindery needs.

Get in touch | Europe

IN-LOG | GÄMMERLER now Solution Partner for RIMA stackers in Europe

projects | parts | service & support | rebuilds | relocations

Customer first ! We keep your RIMA stackers up and running. In addition, we supply reliable solutions with RIMA and/or IN-LOG | GÄMMERLER equipment to improve the productivity of your operation – in pressroom and bindery.

■ Where IN-LOG | GÄMMERLER can help with RIMA:

You need parts for a RIMA-stacker - web or bindery?

You need service / support for a RIMA-stacker - web or bindery?

You are looking for a new RIMA stacker – from entry-level to high-speed?

You consider to rebuild and/or upgrade your RIMA stacker?

You want to trade-in or replace your RIMA web stacker?

Talk to us ! We will help you directly or forward you to your local partner

■ Contact us at IN-LOG | GÄMMERLER

After a change in ownership at RIMA Atlanta – formerly known as RIMA-SYSTEM Atlanta – MERTEN (owner of IN-LOG & GÄMMERLER) is now shareholder at RIMA Atlanta. This partnership will improve the presence and the support for RIMA equipment also in Europe. Contact us to discuss your needs – from parts & support to new & rebuilt equipment!
